

Your business, Our advice It all sums up

Who we are

JY was incorporated in 2017 to offer the best global accounting and audit services. The mark of JY is personalized and trustworthy services that are a result of years of advanced training, technical expertise, and financial acumen. Every service offering is a culmination of in-depth knowledge acquired over three decades in multiple global locations working with diverse scales of businesses across key sectors like manufacturing, trading, FMCG, and telecom, etc. We are passionate about offering the most relevant and practical business insights by applying the latest methodologies, practices, and trends with strict adherence to our code of ethics and established accounting principles.

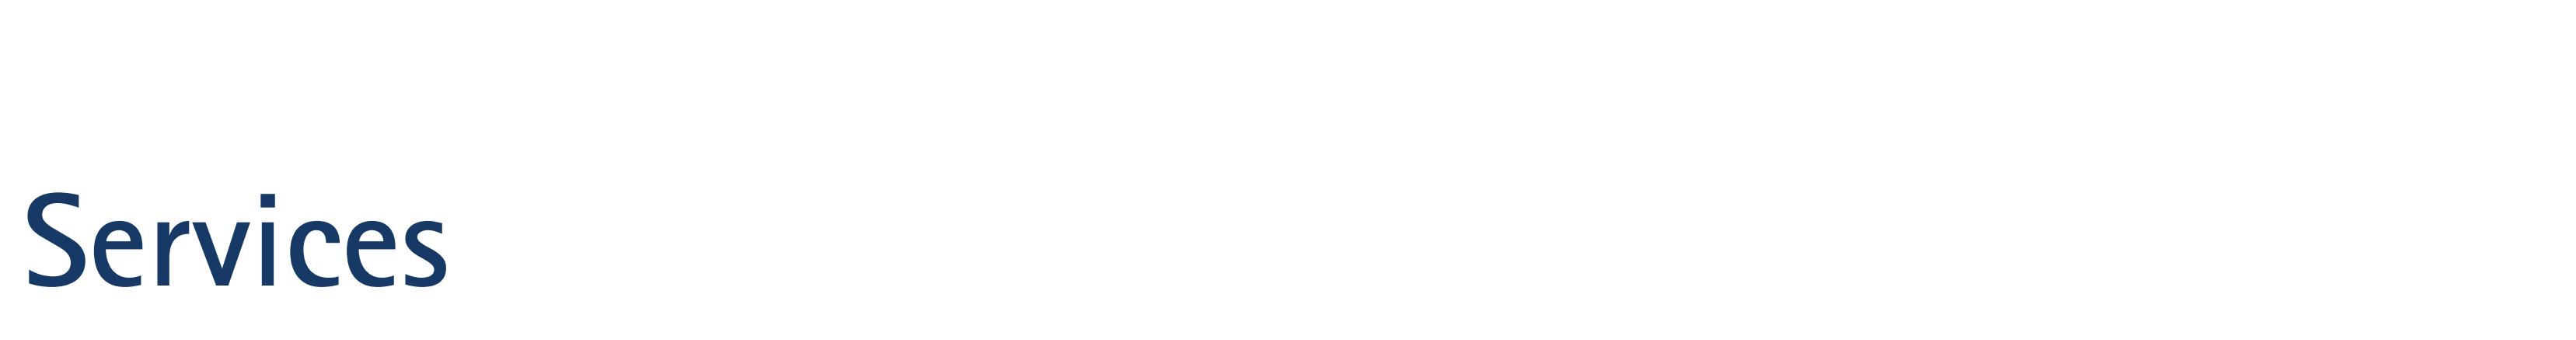

At JY, it is all about relating to the clients on a human level so that values are not compromised in the interest of achieving finesse in business practices and revenue. This passion has rung true by giving rise to enduring trust and a growing network among those who come in contact with us. As a mid-tier firm, we are large enough for businesses to benefit from our strong background and financial acumen – yet we're small enough to still view individual client relationships as our most valued asset.

What we do

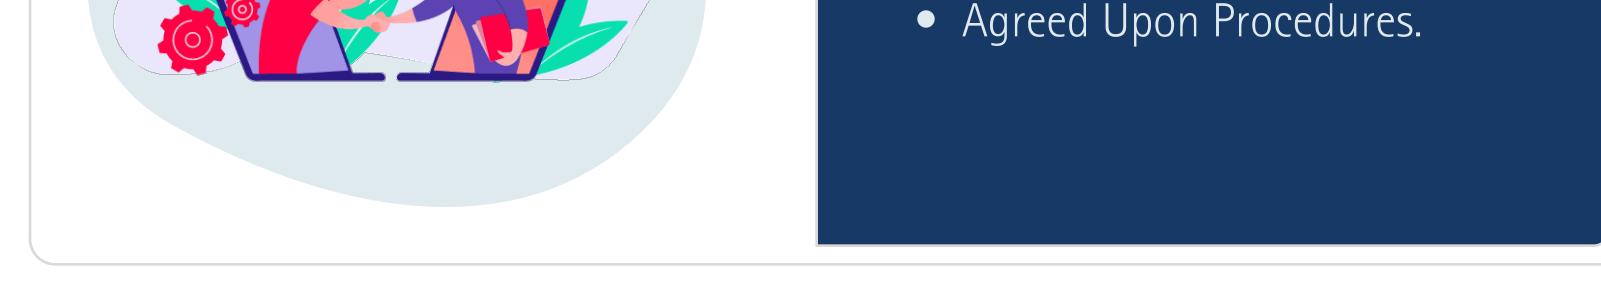

JY is a full-service accounting and consulting firm located in Hyderabad, India. Our key practice areas comprise of Audit & Assurance, Taxation, Business Process Support, Management Consulting, International Transactions, New Business Setup/ Start-Up Advisory. Audit & Assurance

01

Statutory Audit

Internal audit aims at checking that all processes and procedures are in place in a business and that all the functions of each employee are being carried out faithfully and properly. An internal audit is like having a private control system against things that can go wrong and reflect badly upon a company's reputation, in terms of financial decisions and other verticals as well. In it, a consultant accountant goes over the expenses, wastage, fraud, pilferage, etc and suggests ways of minimizing them by fine-tuning business processes. In this way, internal audit is relevant not only to the accounting department of the firm, but to other verticals as well. It can be taken as an evaluation of the performance of each employee, and can bring about dramatic changes if done correctly. The changes suggested by an internal audit would benefit the whole organization. You can consult us as the unbiased third party who can extend this evaluation service to your company. We are especially adept at understanding modern businesses and guiding them to solving their problems such as spiraling costs, insurance and risk management, ethical dilemmas, and manufacturing bottlenecks. Let us help you run your business better!

02

Tax Audit

Tax Audit is a compulsory audit under section 44AB of the Income Tax Act, 1961 if the total turnover exceeds the specified limits in the Act. It is conducted by a practicing Chartered accountant. It involves an examination of the entity's tax accounts to check compliance with the provisions of Income Tax Act, 1961 with respect to declaration of the assessable income, tax reductions or tax offsets claimed in the tax return. We are well conversant with the tax laws of India and are presently assisting many of our clients in filing their tax returns within time. The Indian Tax department examines tax returns submitted, and may call for a tax audit if it sees the need. If you are ever in this position, you can call on us for the best possible advice. Having an accountant present at a tax audit is an option that anyone appearing at a tax audit has. We are an accredited accounting firm, and our services can help you with the proposals and requests presented in a tax audit. We can advise you on how best to handle the queries raised and guide you to meet the requirements of the audit.

03

Internal Audit

Internal audit aims at checking that all processes and procedures are in place in a business and that all the functions of each employee are being carried out faithfully and properly. An internal audit is like having a private control system against things that can go wrong and reflect badly upon a company's reputation, in terms of financial decisions and other verticals as well. In it, a consultant accountant goes over the expenses, wastage, fraud, pilferage, etc and suggests ways of minimizing them by fine-tuning business processes. In this way, internal audit is relevant not only to the accounting department of the firm, but to other verticals as well. It can be taken as an evaluation of the performance of each employee, and can bring about dramatic changes if done correctly. The changes suggested by an internal audit would benefit the whole organization. You can consult us as the unbiased third party who can extend this evaluation service to your company. We are especially adept at understanding modern businesses and guiding them to solving their problems such as spiraling costs, insurance and risk management, ethical dilemmas, and manufacturing bottlenecks. Let us help you run your business better!

04

Certification Services

If you are searching for a CA Certification, look no further! We cater to requirements from both businesses and individuals. We also cater to certificates required for student visa processing.

05

Agreed Upon Procedures

Agreed-upon procedures are determined based on an agreement with an entity to review and report on any financial information or operational processes. For example procedures can include certain tests on accounts payable, accounts receivable, purchases, sales, etc. So, if there is a particular area of your finances, where you need handholding and guidance, we are ready to assist you!

Careers

**01**

Articled Assistants (Internship)

This program is designed to provide practical exposure to the Chartered Accountants in making. The articled assistants at JY get opportunity to handle compliance, tax, accounting, auditing and other allied subjects right from entry level, which helps them transform into a thorough professional towards the end of the three-year period.
